

The 4" drawer has a usable height of 3.38"

The 8" drawer has a usable height of 7.5"

Drawers

By adding drawers, basic shelving bays easily turn into modular small parts storage systems. A convenient alternative to modular drawer cabinets.

- Ball bearing roller tracks for easy opening and closing, even when fully loaded
- Available in two heights, 4" and 8"
- Available in three depths, 16", 18", 20" and 24"
- Drawers can be divided using pre-punched holes in the sides
- Quick and easy to install
- Drop onto lugs on the post
- Drawers extend fully
- High load capacity (150 lbs.), even at full extension
- Grey painted finish
- To provide additional stability and to meet safety guidelines, a shelf must be fitted above the top drawer. Tracks have to be secured with screws
- For safety, single bays with drawers must be bolted to the wall or floor
- In a row of shelving the bays must be clipped together
- Double bays must be anchored to floor

Drawers

Divider with Holes

Cross Dividers without Holes

Drawer Divided into Four Sections

Modular Drawer Dividers

- Dividers insert into holes in the sides of the drawer
- Partitions with snap-in plastic adapters available for further sectioning
- EK Boxes can be used to subdivide drawers into a variety of smaller compartments
